Restricted Countries

HighBinary Technologies Ltd | Version 1.1 | Revised 25 November 2026

Application: this revision takes effect upon authorised publication and any notice or acceptance required by applicable law.

01 / Purpose and scope

This policy governs territorial eligibility for HighBinary services, including registration, real-money trading, deposits, automated trading and promotional activities. It supplements the Terms & Conditions, Risk Disclosure and AML & KYC Policy.

02 / Restricted jurisdictions

HighBinary excludes the following jurisdictions from real-money services as a precautionary territorial policy: United Kingdom, United States (including its territories), Canada, Australia, and all European Union and European Economic Area member states. This is a platform eligibility rule, not a claim that every financial product is prohibited in every listed jurisdiction.

03 / Prior authorisation and market access

Real-money services must remain unavailable until the Company has established the lawful basis and any required permissions for the particular activity, jurisdiction and client category. Retail binary options must not be marketed, distributed or sold by firms acting in or from the United Kingdom, regardless of the retail client’s location. Absence from the restricted list does not imply eligibility or authorisation.

04 / United Kingdom operations

The UK retail binary-options restriction applies to firms acting in or from the United Kingdom, regardless of the retail client’s location. Excluding UK customers alone does not make cross-border services lawful. Registration as a UK company is not financial-services authorisation.

05 / Sanctions and other legal restrictions

Services are unavailable to persons or entities where dealings would violate applicable sanctions, asset-freezing measures, embargoes or other binding restrictions. Restrictions may apply to individuals, entities, territories and transactions regardless of nationality. Applicable measures must be assessed at the time of service.

06 / Residence and location

Eligibility may depend on residence, physical location, citizenship, tax residence or other legally relevant connections. Users must provide accurate information and notify HighBinary of changes that affect eligibility.

07 / Verification and access controls

HighBinary may request identity and address evidence and use proportionate location and transaction checks in accordance with its Privacy Policy. Access may be declined or restricted where eligibility cannot be established. Users may request review of an incorrect restriction.

08 / Circumvention

Users must not conceal their location, misrepresent residence, use another person’s account or use technical tools to bypass territorial restrictions. Legitimate privacy tools are not, by themselves, evidence of wrongdoing.

09 / Existing accounts and funds

If eligibility changes, new trades and deposits may be restricted. Existing positions and lawful withdrawal requests must be handled under the applicable terms and law. Restrictions do not automatically result in forfeiture of funds. Any legally required hold or restriction must be applied proportionately.

10 / Marketing and demonstration services

Marketing, referrals and demonstration access are subject to applicable local restrictions. Demo access does not establish eligibility for real-money trading. Promotions must not target persons or jurisdictions where such activity is prohibited.

11 / Changes and review

The territorial policy may change in response to legal developments, sanctions, permissions or risk assessments. Material changes will be communicated where required. Users should consult the current policy before accessing services.

12 / Contact and review

Questions about eligibility, restrictions or account access may be submitted through Contact Support or support@highbinarytrading.com. Nothing in this policy limits mandatory legal rights or remedies.
